HERTHERGASSE (FROM FOCKYGASSE TO MALFATTIGASSE)

GREEN SURFACES-one side of the street is filled with trees, bushes and grass, also the park is on the same side. On the contrary other side of the street has not one single “green spot”, only facades of multi-family houses

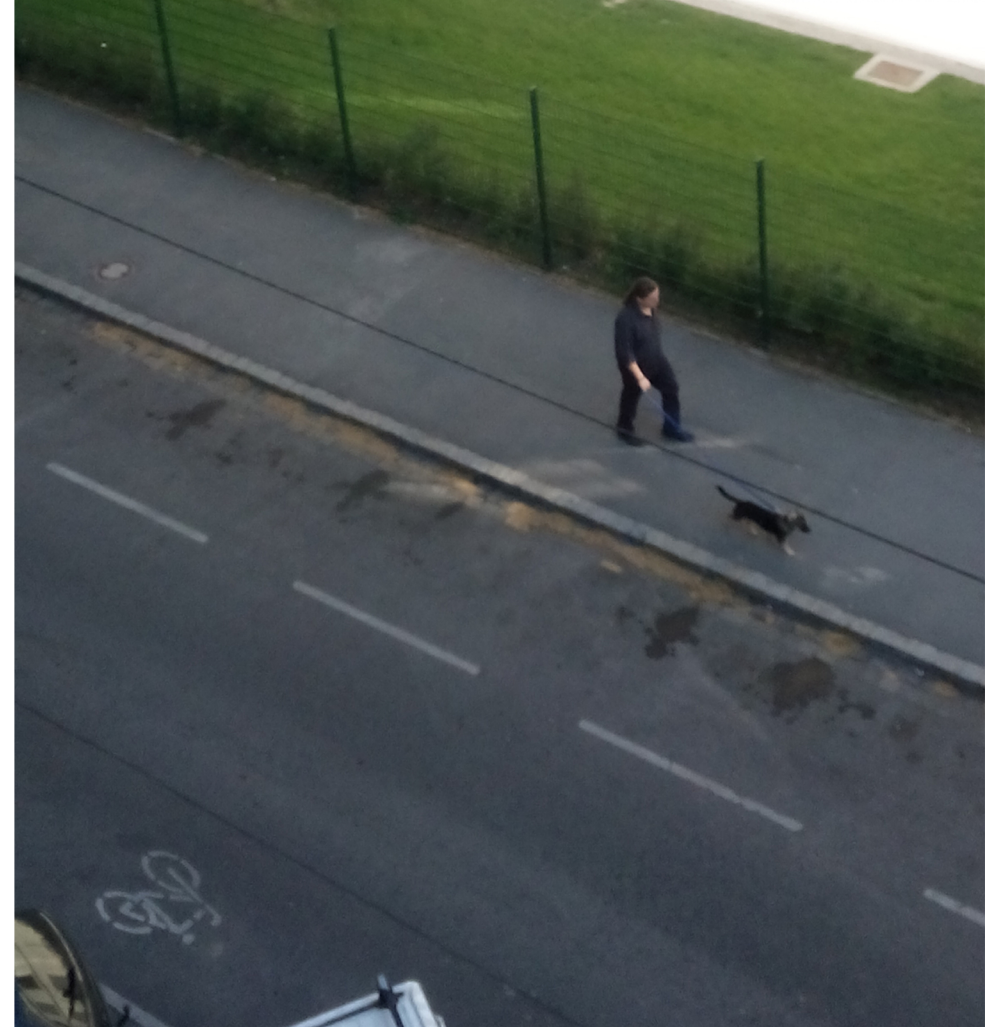

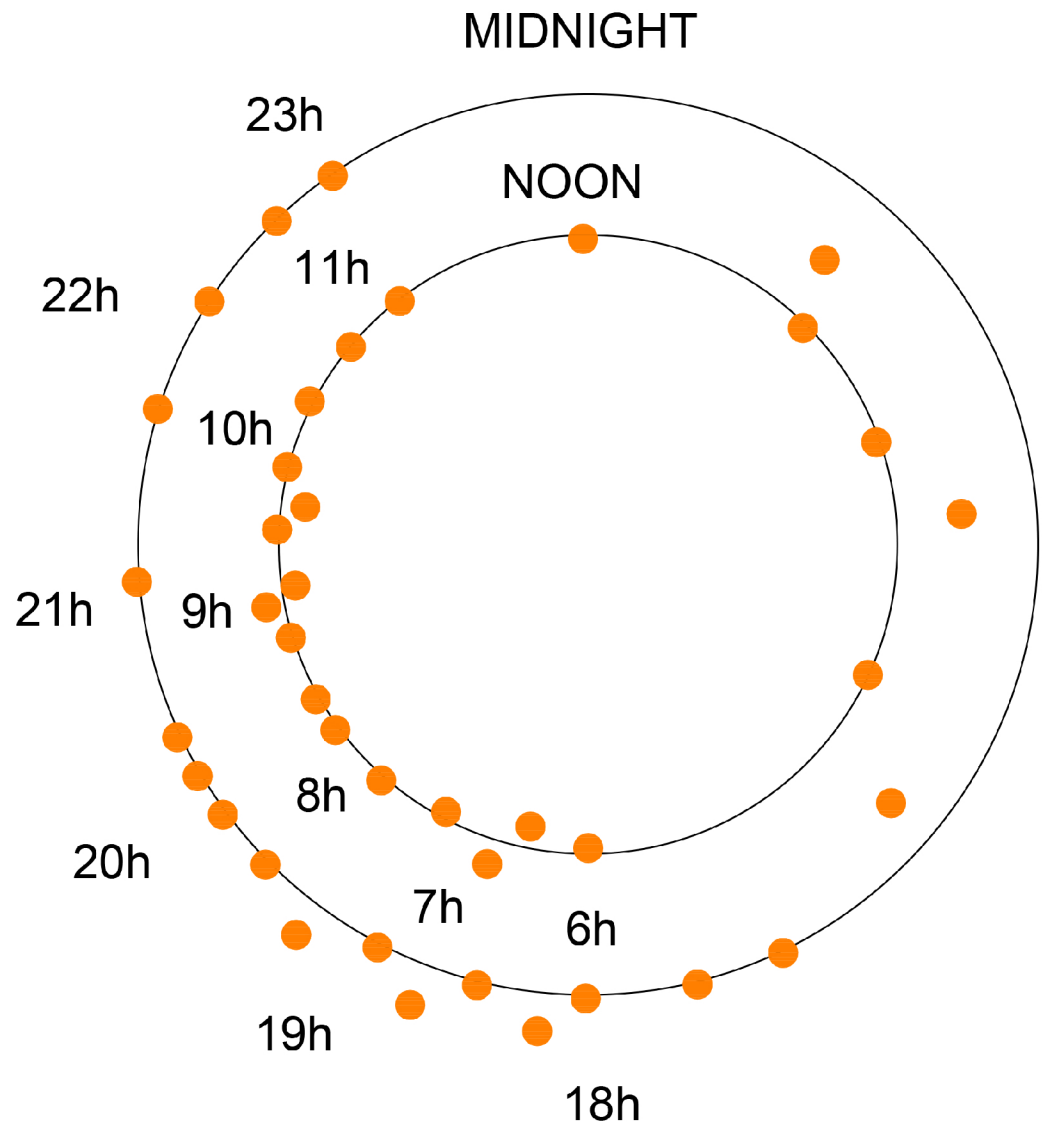

NOISES GRAPH showing from most spreaded and most loudest to the noises, that are almost undetectable, depending on size of the element. The shape of the element shows how penetrating and unpleasant noise is, depending on pointy ends of the element.

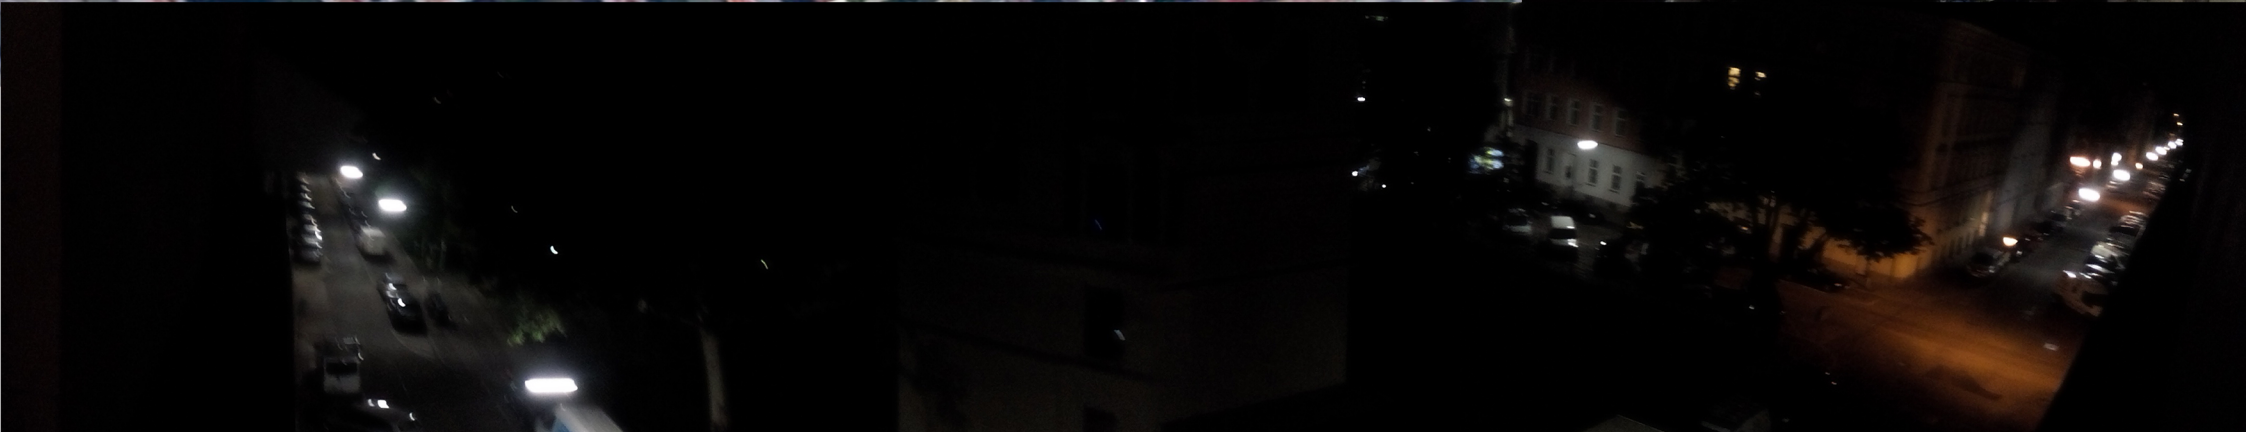

*transportation for children from school-short parking period

PARKING OCCUPATION DURING THE WEEK-In morning hours during work days most of the vehicles move from their parking spots and return in the afternoon. The number of cars changes drastically during the weekends and holidays.

OWNERS WITH DOGS GRAPH-large number of owners with dogs are passing by, because of the park area specialized for dogs(Steinbauer Park)

NIGHT LIGHTS -The same number and rotation of street lights are shown above. Additional light comes from the office building for webdesign Pixelpoems in Fockygasse 29
